**Global Portuguese** - Luiz Paulo Moita-Lopes 2014-12-17 This book aims at deconstructing and problematizing linguistic ideologies related to Portuguese in late modernity and questioning the theoretical presuppositions which have led us to call Portuguese ‘a language.’ Such an endeavor is crucial when we know that Portuguese is a language which is increasingly internationalized, used as the official language in four continents (in ten countries) and which has come to play a relevant role in the so-called linguistic market on the basis of the geopolitical transformations in a multipolar world. The book covers a wide range of social, political and historical contexts in which ‘Portuguese’ is used (in Brazil, Canada, East-Timor, England, Portugal, Mozambique and Uruguay), and considers diverse linguistic practices. Through this critique, contributors chart new directions for research on language ideologies and language practices (including research related to Portuguese and to other ‘languages’) and consider ways of developing new conceptual compasses that are better attuned to the sociolinguistic realities of the late modern era, in which people, texts and languages are increasingly in movement through national borders and those of digital networks of communication.

Small Worlds, Global Lives-Russell King 1999-10-01 Geologists, most from Australia and Britain but with some outliers from continental Europe and North America, focus on small islands, where the scarcity of people and resources make migration substantially important socially and economically. The topics include the Azores; historical, cultural, and literary perspectives on emigration from the minor islands of Ireland; Nevis and the post-war labor movement in Britain; islands and the migration experience in the fiction of Jamaica Kincaid; from dystopia to utopia on Norfolk Island; Tongans online; the changing contours of migrant Samoan kinship; and finding a retirement place in sunny Corfu.

I Jornadas "Emigração/Comunidades"- 2002

Becoming a Citizen-Irene Bloemraad 2006 "Becoming a Citizen is a terrific book. Important, innovative, well argued, theoretically significant, and empirically grounded. It will be the definitive work in the field for years to come."--Frank D. Bean, Co-Director, Center for Research on Immigration, Population and Public Policy "This book is in three ways innovative. First, it avoids the domestic navel-gazing of U.S. immigration studies, through an obvious yet ingenious comparison with Canada. Second, it shows that official multiculturalism and common citizenship may very well go together, revealing Canada, and not the United States, as leader in successful immigrant integration. Thirdly, the book provides a compelling picture of how the state matters in making immigrants citizens. An outstanding contribution to the migration and citizenship literature!"--Christian Joppke, American University of Paris
**Transgressing Borders**-Suzan Ilcan 1998

**Between Race and Ethnicity**-Marilyn Halter 1993
Cape Verdean Americans are the only major group of Americans to have made the voyage from Africa to the United States voluntarily. Their homeland, a drought-stricken archipelago off the west coast of Africa, had long been colonized by the Portuguese. Arriving in New England first as crew members of whaling vessels, these Afro-Portuguese immigrants later came as permanent settlers in their own packet ships. They were employed in the cranberry industry, on the docks, and as domestic workers. Marilyn Halter combines oral history with analyses of ships' records to create a detailed picture of the history and adaptation patterns of the Cape Verdean Americans, who identified themselves in terms of ethnicity but whose mixed African-European ancestry led their new society to view them as a racial group. Halter emphasizes racial and ethnic identity formation among Cape Verdeans, who adjusted to their new life by setting themselves apart from the African American community while attempting to shrug off white society's exclusionary tactics. Ethnographic analysis of rural life on the bogs of Cape Cod is contrasted with the New Bedford, Massachusetts, urban community to show how the immigrants established their own social and religious groups and maintained their Crioulo customs.

The Forgotten Portuguese-Manuel Mira 1998

Landscapes of the Ethnic Economy-David H. Kaplan 2006 Immigration has expanded dramatically in both traditional and emerging receiving nations. This worldwide boom has profoundly altered urban areas as new arrivals have transformed inner cities and suburbs alike into bastions of new ethnic economic activity. Examining the essential role of space in assisting and modifying ethnic business activity, this book considers how ethnic economies are reshaping the urban landscape in the United States, Britain, Australia, Canada, Germany, and Italy. Each chapter explores the significance of urban space and local context in the development of an ethnic economy and how, in turn, ethnic economies have helped to recreate urban neighborhoods. With its international scope and rich case studies, this book will be invaluable for scholars and students alike in the fields of ethnic studies, urban studies, economic development, geography, and sociology.
From Linguistics to Literature-Bernard H. Bichakjian 1981-01-01 Francis M. Rogers, to whom the current volume is in honor of, may be a modest man in principle, but not in his academic pursuits. To call his interests broad in scope is no exaggeration as they cover the fields of linguistics, literature, philology, bibliography, travel narratives and celestial navigation, which is nicely reflected in this volume. Part I concerns general and Luso-Brazilian linguistics (Bernard H. Bichakjian, John B. Jensen, Anthony J. Naro, Joseph M. Piel, Cléa Rameh); Part II Medieval studies: Sheila R. Ackerlind, Donald Stone Jr., Paolo Valesio, Joan B. Williamson; Part III Luso-Brazilian literature (Memória de Lázaro, Frederick C.H. Garcia, David T. Haberly, Jane M. Malinoff, Noami Hoki Moniz, Maria Luisa Nunes, Noêl W. Ortega, Raymond S. Sayers, Nelson H. Vieira); and Part IV on travel literature (Mary M. Rowan, Charity Cannon Willard). This volume also contains a complete bibliography of the writings of Francis M. Rogers.

Workers and Canadian History-Gregory S. Kealey 1995-10-03 Kealey provides an overview of the study of workers in Canada as well as in-depth examinations of two of the field's leading scholars, political economist Clare Pentland and Marxist historian Stanley Bréhaut Ryerson. He analyses the development of Canadian labour history in particular and social history in general, and provides detailed empirical studies of the Orange Order in Toronto, printers and their unions, the Knights of Labor, and the Canadian labour revolt of 1919. The collection concludes with three synthetic views of Canadian working-class history focusing on the labour movement, the role of strikes, and attempts by the state to manage class conflict. Workers and Canadian History will be of great interest to students and scholars of Canadian history, labour history, Marxist and socialist theory and history, and political science.
Confounding the Color Line - James Brooks
2002-07-01 Confounding the Color Line is an essential, interdisciplinary introduction to the myriad relationships forged for centuries between Indians and Blacks in North America. Since the days of slavery, the lives and destinies of Indians and Blacks have been entwined—thrown together through circumstance, institutional design, or personal choice. Cultural sharing and intermarriage have resulted in complex identities for some members of Indian and Black communities today. The contributors to this volume examine the origins, history, various manifestations, and long-term consequences of the different connections that have been established between Indians and Blacks. Stimulating examples of a range of relations are offered, including the challenges faced by Cherokee freedmen, the lives of Afro-Indian whalers in New England, and the ways in which Indians and Africans interacted in Spanish colonial New Mexico. Special attention is given to slavery and its continuing legacy, both in the Old South and in Indian Territory. The intricate nature of modern Indian-Black relations is showcased through discussions of the ties between Black athletes and Indian mascots, the complex identities of Indians in southern New England, the problem of Indian identity within the African American community, and the way in which today's Lumbee Indians have creatively engaged with African American church music. At once informative and provocative, Confounding the Color Line sheds valuable light on a pivotal and not well understood relationship between these communities of color, which together and separately have affected, sometimes profoundly, the course of American history.

**The Portuguese Making of America** - Manuel Mira 2001

**Portuguese Studies Review** - 2007

**Approaching Transnationalisms** - Brenda Yeoh 2011-06-28 The term 'transnationalism' has gained considerable academic and popular currency despite a lack of clear definitions, in part because its overall form changes as its influence incorporates additional spheres of daily life on a variety of scales and contexts. The purpose of this volume is to bring together different perspectives on this phenomenon, using case studies that represent some of the most current thinking on 'transnationalism' in a wide range of disciplines. Central themes which this book explores include legal and economic reactions to transnational migration; the (re)negotiation of identities in the context of changing national, social and cultural identities; and the emergence of new imaginings of home and social space in transnational communities. Approaching Transnationalisms: Studies on Transnational Societies, Multicultural Contacts and Imaginings of Home foregrounds powerful transnational forces crossing the boundaries of nation-states, and at the same time, gives attention to the continued significance of the nation-state and the diversity of localized reactions to transnational challenges.

The World in a City - Paul Anisef 2003-01-01 Toronto is perhaps the most multicultural city in the world. The process of settlement and integration in modern-day Toronto is, however, more difficult for recent immigrants than it was for those newcomers arriving in previous decades. Many challenges face newly settled immigrants, top among them access to healthcare, education, employment, housing, and other economic and community services. The concept of social exclusion opens up promising ways to analyze the various challenges facing newcomers and The World in a City explores Toronto's ability to sustain a civic society. This collection of essays highlights why the need to pay more attention to certain at-risk groups, and the importance of adapting policy to fit the changing settlement and clustering patterns of newcomers is of crucial importance. The authors' findings demonstrate that there are many obstacles to providing opportunity for immigrants, low resource bases in particular. Toronto, they suggest, does not provide a level 'playing field' for its newly arrived inhabitants, and, in failing to recognize the particular needs of new communities, fails to ensure a growth that would be of immense benefit to the city as a whole.

**Rulers and Realms in Medieval Iberia, 711-1492**-Timothy M. Flood 2018-11-09 The Muslim conquest of Iberia in 711 began nearly eight centuries of struggle for control of the peninsula. The invaders quickly achieved military supremacy, but political dominance was less complete. Within a few years, a small band of Christian rebels defied Muslim authority, establishing their own ruling class in the northern mountains of Asturias. The opposing forces competed for control until the Catholic Monarchs Fernando and Isabel established
absolute rule in 1492. Drawing on the latest scholarship, this comprehensive study traces the succession of Iberian sovereigns during a complicated period in early European history.

**And Yet They Come**-Jerry R. Williams 1982 This book is about the Portuguese who immigrated from the Azores Islands to the United States during the years 1800-1870, 1870-1920, and 1957-1982. The earliest Portuguese immigrants were employed in the whaling industry, and settled in New England and California. Another major concentration can be found in the Hawaiian Islands, where they were originally employed as contract agricultural workers. The first chapter of the book describes how whaling helped the Portuguese to reach America. Chapters 2 and 3 compare and contrast the immigrants' occupational experiences in the face of discrimination. Chapter 4 analyzes economic conditions that prompted the Portuguese to leave the Azores and come to America. The fifth chapter examines how these immigrants tried to become assimilated into American culture while retaining their own cultural values. Finally, the last three chapters of the book discuss contemporary economic and political life in the Azores Islands, and explain why Azorean Portuguese continue to immigrate to the United States in search of better economic opportunities.
